ANIMAL HEALTH

Since inception in 1906, Cooper **K**-Brands Ltd (**CKL**) has been the leading animal health company in East and Central Africa. For over a century, **CKL** has delivered high quality products and solutions for livestock farming that is unparalleled in the region.

Through our exclusive countrywide distributor system, a strong regional presence in Tanzania, Uganda, Burundi and Rwanda, we ensure our products are readily available throughout the greater East Africa region. We are a principal supplier of tried, tested and trusted brands in animal health and crop farming sectors, all developed with the key objectives of increasing production and productivity on the farm.

Our range of products includes Anthelmintics (Dewormers), external parasite control products also known as Ecto-parasiticides, Nutritional products, Hygiene & Disinfectants, Anti-infectives, Vaccines and Crop management products.

CKL is a local representative for various companies such as:

- MSD Animal Health
- CRV (Holland Genetics) the world's largest producer of bull semen
- Diamond V
- Rotam Agrochemicals
- Neovia (Invivo Nutrition & Animal Health)

Our guarantee to our customers is the purposeful pursuit of quality in all our undertakings.

Our Purpose | To experience the fulfilment of creating excellence.

Our Values | Keeping our promises, Teamwork & Passion.

Our Corporate Goal | Enabling Africa to be a global leader in food production.

CROP PROTECTION

FUNGICIDES

Packaging
50ml, 100ml, 500ml & 1lt

Used for effective clearing of soil diseases/ infections. Rodazim controls a range of diseases in french beans, rice, cucurbits, tomatoes, flowers and fruit trees (mangoes, citrus, pawpaw)

Rodazim 50SC

Packaging
50g, 100g, 250g, 500g & 1kg

A dual action (preventive and curative) fungicide.

Milor is used in prevention and control of:

- Early and Late Blight in tomatoes and potatoes;
- Leafspots and Dumping off in vegetables;
- Downey Mildew in roses, onions and cucurbits family.

Milor 720WP

HERBICIDES

Packaging
50ml, 200ml & 500ml

Selective herbicide for effective control of annual weeds in potatoes & carrots.

Ambar 480SC

Packaging
500ml, 1L, 5L, 20L

Rophosate ensures effective control of all annual and perennial weeds.

Rophosate

FOLIAR FEEDS

Packaging
80ml, 200ml, 500ml & 1lt

A natural organic plant growth stimulant and soil improver.

Afrikelp increases yields and profitability in various ways:

- Enhances root development
- Increases number of flowers
- Reduces flower & fruit drop
- Increases size of fruits

Afrikelp

TERMITICIDES

Packaging
25ml, 50ml, 250ml, 500ml & 5lt

Maximum protection against termites.

Metro gives long term protection against termites and the damage they cause.

- For use in constructions
- Treatment of termite nests
- Treatment of posts and wood

Rates of usage as low as 25ml in 20lt

Metro 200SC

Packaging
25ml, 50ml, 100ml, 500ml & 1lt

Jackpot is used in the control of biting and sucking pests in vegetables, fruits, flowers and cereals.

Jackpot is quick acting and has a high knockdown effect.

Jackpot 50EC

Packaging
25ml, 50ml, 100ml, 500ml & 1lt

A systemic insecticide used in control of sucking pests e.g. aphids, thrips, whiteflies, leafminers, leafhoppers, sawfly, mealy bugs, cucumber beetles, bean flies & termites.

Imaxi 200SC

Packaging
30g

A granulated insecticide for the control of biting/sucking pests in ornamentals, vegetables and tobacco.

Bamako 700WG

Packaging
50ml, 100ml, 250ml & 1lt

Romectin is a highly effective insecticide for the control of red spider mites and leaf miners.

Romectin 1.8EC

POULTRY

MINERAL SUPPLEMENTS

A dietary supplement used to combat calcium and/or phosphorous related deficiencies in all livestock.

It is indicated for:

- The control of incidences of cannibalism, eating of eggs, weak shells and no shell formation.
- Increase in egg production

Coopers DCP

NUTRITION

Packaging

400g, 1.25kg & 25kg

Proven Benefits of Diamond V XPC in poultry:

1. Enhanced immunity
Sufficient scientific research has proven that Diamond V XPC can influence the innate immune system (animal first line of defence) and provide the necessary support in acquiring immune system to maintain normal level of production during stress.
2. Healthy gut Morphology
Diamond V XPC has been shown to improve gut morphology by helping the animal's immune system stay in balance, promoting natural level of intestinal microbiota, and maintaining normal health during stress. This can be shown by an increase in villi development in poultry gut fed diamond V XPC.
3. Balanced gut Microbiota
Diamond v XPC promotes natural balance of intestinal bacteria crucial for over-role animal performance Feed cost is a major component in poultry production contributing over 70% of the total production cost. Enhanced feed efficiency translates to profitability in poultry production.

The recommended inclusion rates are:

Broilers/Turkeys Feeds

- Starter – 1.25Kg/MT
- Grower/Finisher – 0.62Kg/MT

Layer/Breeder Feeds

- Pullet Starter – 1.5Kg/MT
- Pullet Grower – 1Kg/MT
- Lay Cycle/Breeder – 0.75Kg/MT

Diamond V XPC

HYGIENE & DISINFECTANTS

Packaging

100ml, 500ml, 1lt & 5lt

A rapid, long lasting and powerful broad spectrum disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms.

Kupacide

Packaging

100ml, 500ml, 1lt & 5lt

A heavy duty, broad spectrum terminal disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms.

Kupacide Extra can be used in poultry, pigs, sheep and cattle.

Kupacide Extra

Packaging

100ml, 500ml, 1lt & 5lt

A broad spectrum disinfectant for **terminal fumigation** of livestock housing that kills viruses, bacteria and fungi.

It is suitable for use in fumigating closed buildings such as broiler houses, layer sheds, accommodation, eggs stores, hatcheries, laboratories and mushroom houses. It is also suitable for continuous nest-box and litter disinfection.

CKL Paraform Prills

ANIMAL HEALTH

Kupakula Advanced

Packaging 2kg, 5kg, 20kg

KUPAKULA is a premium protein supplement containing readily bioavailable energy, by-pass protein, phosphorous, calcium, Vitamin A and all essential amino acids including, methionine, lysine and threonine. It is designed for lactating cattle with a high protein requirement, for "Steaming up" in the last two weeks of pregnancy, challenge feeding and for livestock consuming moderate to low quality pasture.

Benefits of KUPAKULA

- It has high energy, which supports increased milk output even in dry periods.
- It is rich in vitamin A, for the protection of the cow's epithelial integrity and against diseases and for reproduction.
- The protein in Kupakula has high degree of rumen stability (By pass protein) This ensures that most of the amino acids reach the intestine where they form precursors to milk protein and blood glucose hence enhanced milk production.

Kupakula Gold

KUPAKULA is ideal for farmers who:

- Want to increase milk output based on current milk production using a high protein supplement that is extremely palatable, and maintains controlled daily consumption.
- Need to supply additional protein to livestock feeding on lower protein pastures.
- Desire to increase pasture utilization by combining a balance of energy and by-pass protein sources to help maintain cattle during drought and enhance milk production.

We have three types of Kupakula:

1. Kupakula Advanced Formula
2. Kupakula Gold Formula
3. Kupakula Nutrition Formula

Kupakula Advanced and Kupakula Gold are formulated for lactating cow for steaming up and challenge feeding to enhance milk production, going back to heat after calving and to ensure healthy calf at birth.

Kupakula Nutrition

Kupakula Gold is fortified with Diamond V XPC a feed additive that enhances fiber digestion and rumen efficiency hence reduces nutrient wastage in dung.

It is formulated for farmers who want to optimize output by maximizing feed digestion and efficiency in the animal.

Kupakula Nutrition is designed for beef cows, sheep and goats during drought and/or for maintenance and basic production. Kupakula nutrition is also suitable as a supplement for cattle with high protein requirements (Replacement heifers, gestating cows and rapidly growing calves).

Diamond V XPC

Packaging 400g, 1.25kg & 25kg

Diamond V is a feed ingredient containing nutritional metabolites created through an exclusive fermentation process which ensures the preservation of yeast factors, B-vitamins and other nutritional fermentation products. It is designed for further manufacture of nutritionally balanced feeds for cattle, poultry, pigs, equines and pets

Diamond V helps stimulate production of both fibre digesting and lactic acid utilizing bacteria by providing essential metabolites which enhances bacterial reproduction and fermenting ability. This in turn helps to enhance volatile fatty acid (VFA) production and energy availability for health and production hence a better return on investment.

Coopers DCP

Packaging 250g, 500g & 25kg

DCP is a dietary supplement used to combat Calcium and/or Phosphorous related deficiencies in all livestock.

Triik

Packaging 1kg, 5kg & 25kg

Triik is a fortified Milk replacer for feeding to calves from one week of age to weaning.

Triik allows the calf to get all the energy, proteins, vitamins, minerals and trace elements it needs, without stressing the rumen development of the calf.

Triik is made from easily digestible sources of energy and protein, thereby creating a smooth transition from colostrum to Triik.

NUTRITION

Packaging
2kg & 20kg

T5X is a premium Mycotoxin binder used in animal feed to impart the following benefits to the animal:

- i) Bind a very wide range of mycotoxins including Aflatoxin
- ii) Unique dual action formulation with both preventative and curative action
- iii) Stimulate the liver to enhance natural detoxification process.

This is because T5X is fortified with powerful antioxidants (Selenium, BHT, Betain and Vitamins) which take care of Oxidative stress, Natural T5X can be used across all animal species to deliver these benefits while protecting the animal from the harmful consequences of toxins in feed.

T5X is much more than a toxin binder!

T5X

MINERAL SUPPLEMENTS

Packaging
5kg, 10kg, 20kg & 50kg

Maclik Beef is a composition of minerals specially designed to meet the body's mineral requirements for growing and mature beef stock as well as sheep and goats.

Maclik Beef

Packaging
1kg, 2kg, 5kg, 10kg, 20kg, 50kg

Maclik Plus is specially formulated for heifers (6 months onwards) and dry cows. Maclik Plus provides all the essential requirements and contains vital elements for improved health, heat enhancement and prepares the heifer for conception and eventual lactation

Maclik Plus

Packaging
500g, 1kg, 2kg, 5kg, 10kg, 20kg & 50kg

Maclik Super is a mineral supplement specifically designed for the dairy cow to provide her with all the necessary requirement of Phosphorus and Calcium for maintenance and production of both calves and milk.

All the basic trace minerals are present at appropriate levels and provided this mineral is fed as advised, no deficiency problems such as milk fever and return to heat and conception should be experienced.

Feeding with Maclik Super restores elements lost during milking and hence ensures enhanced milk production.

Maclik Super

Packaging
2kg, 5kg & 10kg

CKL X-tra is a highly convenient mineral lick with moderate amounts of trace minerals that is suitable for all classes and species of animals.

It is compacted under high pressure to ensure that there is minimal loss through breakages or from dissolving when exposed.

CKL X-tra Brick

Packaging
10kg & 20kg

Maclik XP is an advanced mineral supplement for high yielding animals (15kg and above).

Maclik XP minerals and extra phosphorus are chelated, therefore increasing their bio-availability for the animals.

Maclik XP

Packaging
2kg

Maclik Mineral Brick is a highly convenient compacted mineral salt lick suitable for all classes and species of livestock. Useful for introduction of calves to mineral supplements and ad-lib (free) mineral supplementation for all animals.

Maclik Mineral Brick

Packaging
500ml, 1lt & 5lt

Mastrite is a highly effective udder wash and teat dip indicated for use in preventing teat sores and lesions while giving potent control of mastitis causing organisms.

Use 10ml per 5lt of water

Mastrite

Packaging
1lt & 5lt

Bactergent is a powerful combination detergent and bactericide for washing and sterilizing dairy utensils and equipment. Bactergent makes cleaning easier, more thorough and prevents subsequent development of bacteria on the dairy equipment.

Used at a rate of 25ml to 10L of water

Bactergent

Packaging
100ml, 500ml, 1lt & 5lt

Kupacide is a rapid, long lasting and powerful broad spectrum disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms.

Kupacide can be used for routine disinfection, aerial fogging, wheel and foot dips as well as water sanitisation.

Kupacide

Packaging
100ml, 500ml, 1lt & 5lt

Kupacide Extra is a rapid, long lasting and powerful broad spectrum disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms. It has the added advantage of Phenol

Kupacide Extra

Packaging
100g, 250g, 400g, 1kg & 2kg

Coopers Milking Salve is a medicated, antiseptic salve for use in protection and maintenance of udder health. It is indicated for application on the milker's hands, Cow's Udder and teats during milking.

Routine use of Coopers Milking Salve

- i) Increases the natural resistance of the skin of the cow's teats to bacterial infection.
- ii) Aids in the quick healing of any wounds or abrasions on the teats
- iii) Tones the skin to prevent cracking and chapping of the teats, keeping the skin soft and healthy.

Coopers Milking Salve

Packaging
500g & 1.5kg

Paraform Prills is a broad spectrum disinfectant for terminal fumigation of livestock housing that kills viruses, bacteria and fungi.

It is suitable for use in fumigating closed buildings such as broiler houses, layer sheds, accommodation, eggs stores, hatcheries, laboratories and mushroom houses.

It is also suitable for continuous nest-box and litter disinfection.

Paraform Prills

DEWORMERS

Packaging
20g

Nilzan Bolus is a broad-spectrum dewormer in tablet form for use in cattle, sheep and goats.

Use 1 Bolus per every 150 Kg body weight. For animals weighing 300 Kg and above a maximum of 2 tablets should be given.

Nilzan Bolus

Packaging
125ml, 150ml, 500ml, 1lt, 5lt

This is a broad spectrum dewormer for control of roundworms, lungworms, flukes and tapeworms cattle, sheep and goats which contains added trace elements for recovery, improved growth and performance.

Nilzan Plus can be used all year round.

Use at a rate of 5ml per 10kg bodyweight.

Nilzan Plus

Packaging
125ml, 500ml & 1lt

A "double strength" broad spectrum dewormer for control of roundworms, lungworms, flukes and tapeworms in cattle, sheep and goats which contains added trace elements for improved growth and performance in the animal. Safe for young, pregnant and lactating animals.

Use at a rate of 2.5ml per 10kg bodyweight.

Nilzan Super

Packaging
150ml, 500ml & 1lt

Nilverm is a highly effective broad spectrum drench for treatment and control of roundworms and lungworms infestation in cattle sheep and goats.

Nilverm

Packaging
125ml (10% & 2.5%), 250ml (10%) & 1lt (10%)

Nefluk 10% is a broad-spectrum dewormer suspension for use in cattle sheep and goats.

Use at 0.75ml of Nefluk 10% per 10kg bodyweight.

Nefluk 2.5% is a broad-spectrum single dose dewormer suspension.

Nefluk 10% & Nefluk 2.5%

Packaging
125ml, 150ml, 500ml, 1lt & 5lt

Nefluk Bolus is a broad spectrum dewormer tablet that targets lung worms, tapeworms and liver flukes in cattle, sheep and goats. It is administered at the rate of 2 boli for an adult cow, 1/2 for calves and 1/4 for sheep and goats.

Nefluk Bolus

Packaging
125ml, 150ml, 500ml, 1lt & 5lt

A broad-spectrum anthelmintic for cattle, sheep and goats. It contains cobalt for improved growth and performance.

Xpergator

(Available in Rwanda only)

TIPS: • Deworm all livestock every three months. • Always use the right dosing based on animal's body weight.

ANTI - INFECTIVES/ VACCINES & BIOLOGICALS

Packaging
20ml & 40ml

Butalex is indicated for the treatment of Theileriosis (East Coast Fever, Corridor disease, Tropical Theileriosis etc) in cattle.

It may be used during the incubation period of the disease or when clinical signs are apparent.

Butalex

Packaging
10ml

Imizol is an effective solution for the treatment and prevention of Babesiosis in cattle, sheep, horses and dogs, Anaplasmosis in cattle and Ehrlichiosis in dogs.

Imizol

Packaging
100ml

Blanthax is a vaccine for the active immunisation of animals (Cattle, horses, camels, sheep & goats) against anthrax and black quarter.

Blanthax Vaccine

Packaging
2ml

Estrumate is a hormonal preparation for the control of Oestrus and treatment of specific reproductive disorders in cattle and horses.

Estrumate

GENETICS

CKL is the local representative for CRV one of the largest AI organisations in the world.

CRV stands for:

- Reliably tested sires
- Profitable and long lasting cows
- High milk yields with high components
- Quality udders and great feet & legs

CRV

VET ESSENTIALS

Packaging
100g & 200g

Coopers Light Kaolin is indicated for the treatment of enteritis and scours (diarrhoea) in livestock.

It absorbs bacterial toxins (poisons) in the gut reducing the amount of toxic matter that might enter into the blood circulation.

Coopers Light Kaolin

Packaging
250g & 500g

Coopers Copper Sulphate has stringent and fungicidal properties and is useful for prevention and treatment of foot rot and ringworms in sheep, goats and cattle.

Coopers Copper Sulphate

Packaging
100ml & 5lt

CKL Stop Bloat is for use in prevention and treatment of bloat in all ruminants.

CKL Stop Bloat

Packaging
500g

Coopers Epsom Salt is a crystalline powder that is used to make a powerful saline purgative to treat indigestion and constipation in all animals including ruminants (cattle, sheep, and goats), pigs, horses, dogs and poultry.

Coopers Epsom Salt

Packaging
100ml & 250ml

Coopers Healing Oil aids in the soothing of cuts and wounds, and provides a soothing effect on all animals during lambing, docking, castration, dehorning and shearing.

Coopers Healing Oil

ECTO - PARASITICIDES

Packaging
20ml, 40ml, 100ml, 500ml, 1lt & 5lt

Grenade is an emulsifiable concentrate dip & spray for the control of ticks, flies, lice and keds on livestock. It is both an insecticide and acaricide and is suitable for use on cattle, sheep, goats, camels, dogs.

Grenade may be used in dips, spray races, hand sprayers and other spray devices and is applied at a rate of 1ml per litre of water.

Grenade EC

Packaging
40ml, 100ml, 250ml, 500ml, & 5lt

Triatix is an ectoparasiticide for use in Dips or as a Spray for the control of ticks, mange mites, keds and biting & sucking lice on cattle, sheep, goats, camels, pigs and dogs.

Triatix exhibits a rapid expellant action which causes ticks to quickly detach from the body, drop to the ground and die. Its residual activity provides protection by preventing re-attachment of re-infesting ticks. The product is applied at a rate of 2ml per litre of water for spraying and dipping.

Triatix Stock Spray
