

PRODUCT CATALOGUE

www.ckl.africa

Since inception in 1906, **CKL** Africa Limited has since grown to include crop care products in its portfolio, and also the leading animal health company in East and Central Africa. For over a century, **CKL** Africa Limited has delivered high quality products and solutions for livestock farming that is unparalleled in the region.

Through our exclusive countrywide distributor system, a strong regional presence in Tanzania, Uganda, Burundi and Rwanda, we ensure our products are readily available throughout the greater East Africa region. We are a principal supplier of tried, tested and trusted brands in animal health and crop farming sectors, all developed with the key objectives of increasing production and productivity on the farm.

Our range of products includes:

- Anthelmintics (Dewormers)
- External parasite control products also known as Ecto-parasiticides
- Nutritional products (Feed Additives and Mineral Supplements)
- Hygiene & Disinfectants
- Anti-infectives
- Vaccines
- Crop management products

CKL Africa Limited is a local representative of various companies such as:

- | | |
|-----------------------|-----------------------------|
| • MSD Animal Health | • Pathway Intermediates Ltd |
| • CRV | • BioProton |
| • Diamond V | • Sineria |
| • Rotam Agrochemicals | • Kimatec |
| • Pancosma | • Afrikelp |
| • Champrix | |

Our guarantee to our customers is the purposeful pursuit of quality in all our undertakings.

Our Purpose | To experience the fulfilment of creating excellence.

Our Values | Keeping our promises, Teamwork & Passion.

Our Corporate Goal | *Enabling Africa to be a global leader in food production.*

CROP PROTECTION

FUNGICIDES

	Rodazim 50SC	Stage
DESCRIPTION	Used for effective clearing of soil diseases/ infections. Rodazim controls a range of diseases in french beans, rice, cucurbits, tomatoes, flowers and fruit trees (mangoes, citrus, pawpaw)	A highly effective fungicide against a wide range of crop diseases in wheat, coffee, beans, peas, fruits, tomatoes, potatoes and onions. It has preventative, curative and eradicated properties and does not wash off easily in wet rainy conditions.
SKUs	50ml, 100ml, 500ml & 1lt	50ml, 100ml, 200ml, 500ml & 1ltr

HERBICIDES

	Ambar 480SC	PRO 2.4D	Twist
DESCRIPTION	Selective herbicide for effective control of annual weeds in potatoes & carrots.	A post emergence herbicide used in grains and grasses, to control broad leaved weeds. It has a strong systemic action on broad leaved weeds and can be used in wet (rainy) conditions.	A post emergence herbicide which controls grass weeds in wheat and other grains, such as rice. Effective against a large number of different grass weeds, among them Rye Grass, Canary Grass, Foxtail, Lovegrass & Wild Oats.
SKUs	50ml, 200ml & 500ml	200ml, 500ml, 1ltr, 5ltr & 20ltr	200ml, 500ml, 1ltr & 5ltrs

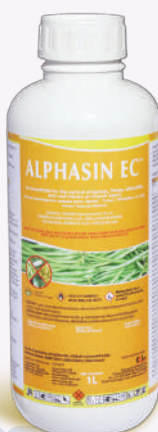

FOLIAR FEEDS

	Afrikelp	Harmony
DESCRIPTION	A natural organic plant growth stimulant and soil improver. Afrikelp increases yields and profitability in various ways: <ul style="list-style-type: none"> • Enhances root development • Increases number of flowers • Reduces flower & fruit drop • Increases size of fruits 	A bio stimulant foliar fertilizer that has high levels of Fulvic Acid and amino acids. Fulvic Acids have the strong ability to carry trace elements faster to the plant thereby helping the plant to absorb nutrients more rapidly than with other foliar fertilizers.
SKUs	80ml, 200ml, 500ml & 1lt	250ml, 1ltr & 5ltr

INSECTICIDES

	Jackpot 50EC	Alphasin	Imaxi 200SC
DESCRIPTION	<p>Jackpot is used in the control of biting and sucking pests in vegetables, fruits, flowers and cereals.</p> <p>Jackpot is quick acting and has a high knockdown effect.</p>	<p>Alphasin is used for control of biting and sucking pests in a wide range of vegetables, fruits, flowers and cereals. It has a fast knockdown effect on pests, stops pest damage to crops immediately on contact and is effective at low dosage.</p>	<p>A systemic insecticide used in control of sucking pests e.g. aphids, thrips, whiteflies, leafminers, leafhoppers, sawfly, mealy bugs, cucumber beetles, bean flies & termites.</p>
SKUs	25ml, 50ml, 100ml, 500ml & 1lt	50ml, 100ml, 200ml, 1L & 5ltr	25ml, 50ml, 100ml, 500ml & 1lt

	Bamako 700WG	Romectin 1.8EC
DESCRIPTION	<p>A granulated insecticide for the control of biting/sucking pests in ornamentals, vegetables and tobacco.</p>	<p>Romectin is a highly effective insecticide for the control of red spider mites and leaf miners.</p>
SKUs	30g	50ml, 100ml & 1lt

TERMITICIDES

	Metro 200SC
DESCRIPTION	<p>Maximum protection against termites.</p> <p>Metro gives long term protection against termites and the damage they cause.</p> <ul style="list-style-type: none"> • For use in construction • Treatment of termite nests • Treatment of posts and wood
SKUs	25ml, 50ml, 250ml, 500ml & 5lt

SOIL MOISTURE RETENTION PRODUCT

	Stockosorb
DESCRIPTION	<p>A granular soil amendment product (polymer) which increases the water retention properties of soil, enabling crop to grow in drought conditions.</p>
SKUs	1kg

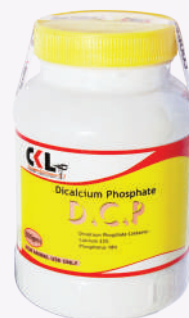

POULTRY

MINERAL SUPPLEMENTS

	CKL DCP
DESCRIPTION	<p>A dietary supplement used to combat calcium and/or phosphorous related deficiencies in poultry.</p> <p>It is indicated for:</p> <ul style="list-style-type: none"> • The control of incidences of cannibalism, eating of eggs, weak shells and no shell formation. • Increase in egg production
SKUs	250gms & 25kg

NUTRITION

	Natuzyyme	Lipidol	T5Z	Diamond V
DESCRIPTION	<p>Natuzyyme is a cocktail of high quality and multi-activity feed enzyme that enables better nutrient utilisation resulting in high quality meat for broilers and eggs for layers.</p>	<p>A nutrient absorption accelerator that minimizes nutrients wastage by enhancing absorption. Lipidol has high levels of energy thus enhancing energy savings in feed formulation. It improves egg weight and grade and enhances growth performance in broilers.</p>	<p>T5Z is a broad spectrum mycotoxin binder. It is both curative and preventive and gives a comprehensive solution against mycotoxins in poultry feed.</p>	<p>Diamond V is a feed ingredient containing nutritional metabolites created through an exclusive fermentation process which ensures the preservation of yeast factors, B-vitamins and other nutritional fermentation products. It is designed for further manufacture of nutritionally balanced feeds for cattle, poultry, pigs, equines and pets</p> <p>Diamond V helps stimulate production of both fibre digesting and lactic acid utilizing bacteria by providing essential metabolites which enhances bacterial reproduction and fermenting ability. This in turn helps to enhance volatile fatty acid (VFA) production and energy availability for health and production hence a better return on investment.</p>
SKUs	350gms & 20kg	1kg & 20kg	2kg & 25kg	400g, 1.25kg & 25kg

HYGIENE & DISINFECTANT

	Kupacide
DESCRIPTION	<p>A rapid, long lasting and powerful broad spectrum disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms.</p>
SKUs	100ml, 500ml, 1lt & 5lt

ANIMAL HEALTH

FEED ADDITIVES/ PREMIXES/ MILK REPLACER

	Kupakula Advanced	Kupakula Gold	Kupakula Nutrition	T5Z
DESCRIPTION	A feed additive for improved milk production in dairy animals that have not realised their full milking potential. It provides energy and protein in a form directly utilized by the animal (by-pass protein and fat). Gives high energy, which supports increased milk output even in dry periods.	A premium protein supplement that is fortified with Diamond V®. It provides energy and protein in a form directly utilized by the animal (by-pass protein and fat) with the additional benefit of enhanced digestion and nutrient absorption.	Kupakula Nutrition Formula is a premium protein supplement that provides energy and protein in a form directly utilized by the animal (by-pass protein and fat). It is indicated for beef, dairy cattle, sheep and goats.	T5Z is a broad spectrum mycotoxin binder. It is both curative and preventive and gives a comprehensive solution against mycotoxins in livestock feeds.
SKUs	2kg, 5kg & 20kg	2kg & 5kg	2kg, 5kg & 20kg	2kg & 20kg

	CKL DCP	Lipidol	Natuzyne	Trilk Premium
DESCRIPTION	DCP is a dietary supplement used to combat Calcium and/or Phosphorous related deficiencies in all livestock.	A nutrient absorption accelerator that minimizes nutrients wastage by enhancing absorption into the cell membrane. Lipidol has high levels of energy thus enhancing energy savings in feed formulation. It enhances growth performance in young growing animals.	Natuzyne is a cocktail of high quality and multi-activity feed enzyme that enables better nutrient utilisation resulting in more high quality meat or milk with lower total cost.	Trilk Premium is a fortified milk replacer for feeding to calves from one week of age to weaning. Trilk Premium allows the calf to get all the energy, proteins, vitamins, minerals and trace elements it needs, without stressing the rumen development of the calf. Trilk Premium is made from easily digestible sources of energy and protein, thereby creating a smooth transition from colostrum to Trilk Premium .
SKUs	250gm & 25kg	1kg & 20kg	350gms & 20kg	1kg, 5kg & 25kg

MINERAL SUPPLEMENTS

	Maclik Beef	Maclik Plus	Maclik Super
DESCRIPTION	<p>Maclik Beef is specially formulated to provide adequate minerals for beef cattle to promote weight gain, strong bones, smooth and shiny coat and overall health.</p> <p>Maclik Beef can also be given to shoats</p>	<p>Maclik Plus is a special mineral supplement formulation for heifers (from 6 months of age onwards) and growing stock.</p> <p>Maclik Plus helps animals to grow strong and mature on time as it supplies the critical elements needed for musculo-skeletal growth and improved overall health. This helps the animal to come on heat on time and prepares heifers for conception and eventual lactation.</p>	<p>Maclik Super is a special mineral supplement formulation for lactating dairy animals.</p> <p>Maclik Super meets all the mineral requirements of the cow, enhances high milk production, maintains good health and supports a healthy reproduction system for fertility.</p>
SKUs	2kg, 5kg, 10kg, 20kg & 25kg	1kg, 2kg, 5kg, 10kg, 20kg & 25kg	500g, 1kg, 2kg, 5kg, 10kg, 20kg & 25kg

	CKL X-tra Brick	Maclik Dry Cow	Maclik Mineral Brick
DESCRIPTION	<p>CKL X-tra is a highly convenient mineral lick with moderate amounts of trace minerals that is suitable for all classes and species of animals.</p> <p>It is compacted under high pressure to ensure that there is minimal loss through breakages or from dissolving when exposed.</p>	<p>Maclik Dry Cow is specifically made for pregnant cows that are nearing calving (last 2 months of pregnancy). It contains nutrients for optimum pregnancy maintenance and calf growth and health.</p>	<p>Maclik Mineral Brick is a highly convenient compacted mineral salt lick suitable for all classes and species of livestock. Useful for introduction of calves to mineral supplements and ad-lib (free) mineral supplementation for all animals.</p>
SKUs	2kg, 5kg & 10kg	1kg, 2kg & 6kg	2kg & 5kg

HYGIENE & DISINFECTANTS

	Mastrite	Bactergent
DESCRIPTION	<p>Mastrite is a highly effective udder wash and teat dip indicated for use in preventing teat sores and lesions while giving potent control of mastitis causing organisms.</p> <p>Use 10ml per 5lt of water</p>	<p>Bactergent is a powerful combination detergent and bactericide for washing and sterilizing dairy utensils and equipment. Bactergent makes cleaning easier, more thorough and prevents subsequent development of bacteria on the dairy equipment. Used at a rate of 25ml to 10L of water.</p>
SKUs	100ml, 500ml, 1lt & 5lt	1lt & 5lt

	Kupacide	CKL Milking Salve
DESCRIPTION	<p>Kupacide is a rapid, long lasting and powerful broad spectrum disinfectant for general use against viruses, bacteria, mycoplasmas, fungi and coccidian organisms.</p> <p>Kupacide can be used for routine disinfection, aerial fogging, wheel and foot dips as well as water sanitisation.</p>	<p>CKL Milking Salve is a medicated, antiseptic salve for use in protection and maintenance of udder health. It's indicated for application on the milker's hands and cow teats during milking.</p> <p>Routine use of CKL Milking Salve</p> <ol style="list-style-type: none"> Increases the natural resistance of the skin of the cow's teats to bacterial infection. Aids in the quick healing of any wounds or abrasions on the teats Tones the skin to prevent cracking and chapping of the teats, keeping the skin soft and healthy.
SKUs	100ml, 500ml, 1lt & 5lt	50gms, 100g, 250g, 400g, 1kg & 2kg

DEWORMERS

	Nilzan Bolus	Nilzan Plus	Nilzan Super
DESCRIPTION	<p>Nilzan Bolus is a broad-spectrum dewormer in tablet form for use in cattle, sheep and goats.</p> <p>Use 1 Bolus per every 150 Kg body weight. For animals weighing 300 Kg and above a maximum of 2 tablets should be given.</p>	<p>This is a broad spectrum dewormer for control of roundworms, lungworms, flukes and tapeworms in cattle, sheep and goats. Nilzan Plus contains added trace elements for recovery, improved growth and performance.</p> <p>Nilzan Plus can be used all year round.</p> <p>Use rate: weight of animal ÷ 2 = amount of Nilzan Plus in ml.</p>	<p>A double strength broad spectrum dewormer for the control of roundworms, lungworms, flukes and tapeworms in cattle, sheep and goats. Nilzan Super contains added trace elements for improved growth and performance in the animal. Safe for young, pregnant and lactating animals.</p> <p>Use rate: weight of animal ÷ 4 = amount of Nilzan Super in ml.</p>
SKUs	20g	125ml, 150ml, 500ml, 1lt & 5lt	125ml, 500ml & 1lt

	Nilverm	Nefluk 10% & Nefluk 2.5%	Nefluk Bolus
DESCRIPTION	<p>Nilverm is a highly effective broad spectrum drench for treatment and control of roundworms and lungworms infestation in cattle sheep and goats.</p>	<p>Nefluk is a broad-spectrum dewormer suspension for use in cattle, sheep and goats.</p> <p>Use at 0.75ml of Nefluk per 10kg bodyweight. It is available in 10% and 2.5% w/v strengths.</p>	<p>Nefluk Bolus is a broad spectrum dewormer tablet that targets lung worms, tapeworms and liver flukes in cattle, sheep and goats. It is administered at the rate of 2 boli for an adult cow, 1/2 for calves and 1/4 for sheep and goats.</p>
SKUs	150ml	40ml, 125ml, 250ml & 1lt	5g

TIPS:

- Deworm all livestock every three months.
- Always use the right dosing based on animal's body weight.

VET ESSENTIALS

	CKL Light Kaolin	CKL Copper Sulphate	CKL Stop Bloat
DESCRIPTION	<p>CKL Light Kaolin is indicated for the treatment of enteritis and scours (diarrhoea) in livestock.</p> <p>It absorbs bacterial toxins (poisons) in the gut reducing the amount of toxic matter that might enter into the blood circulation.</p>	<p>CKL Copper Sulphate has stringent and fungicidal properties and is useful for prevention and treatment of foot rot and ringworms in sheep, goats and cattle.</p>	<p>CKL Stop Bloat is for use in prevention and treatment of bloat in all ruminants.</p>
SKUs	100g	250g	125ml & 1lt

	CKL Healing Oil	CKL Epsom Salt
DESCRIPTION	<p>CKL Healing Oil aids in the soothing of cuts and wounds, and provides a soothing effect on all animals during lambing, docking, castration, dehorning and shearing.</p>	<p>CKL Epsom Salt is a crystalline powder that is used to make a powerful saline purgative to treat indigestion and constipation in all animals including ruminants (cattle, sheep, and goats), pigs, horses, dogs and poultry.</p>
SKUs	100ml & 250ml	500g

ECTO - PARASITICIDES

	Grenade EC	Triatix Stock Spray
DESCRIPTION	<p>Grenade is an emulsifiable concentrate dip & spray for the control of ticks, flies, lice and keds on livestock. It is both an insecticide and acaricide and is suitable for use on cattle, sheep, goats, camels and dogs.</p> <p>Grenade may be used in dips, spray races, hand sprayers and other spray devices and is applied at a rate of 1ml per litre of water.</p> <p>Spraying/dipping with Grenade should be done at a 7-day interval with strict adherence to the dilution rates for efficacy and to avoid resistance.</p>	<p>Triatix is an ectoparasiticide for use in dips or as a spray for the control of ticks, mange mites, keds and biting & sucking lice on cattle, sheep, goats, camels, pigs and dogs.</p> <p>Triatix exhibits a rapid expellant action which causes ticks to quickly detach from the body, drop to the ground and die. Its residual activity provides protection by preventing re-attachment of re-infesting ticks. The product is applied at a rate of 2ml per litre of water for spraying and dipping.</p> <p>Spraying/dipping with Triatix should be done at a 7-day interval with strict adherence to the dilution rates for efficacy and to avoid resistance.</p>
SKUs	20ml, 40ml, 100ml, 1lt & 5lt	20ml, 40ml, 100ml, 250ml, 500ml, & 5lt

PETS

EXTERNAL PARASITES CONTROL

	Bravecto	Bravecto Spot-On
DESCRIPTION	Bravecto is a chewable tablet for the treatment and prevention of tick, flea and mite infestations in dogs. It gives long-lasting protection (3 months) in a single chew. It is fast acting (kills ticks and fleas within 2 hrs) and has a very high safety margin at 5 times of the clinical dose.	Bravecto Spot On is a broad spectrum external application insecticide used on cats for the control of ticks, fleas and mites. It gives long-lasting protection (3 months), is fast acting (kills ticks and fleas within 8hrs) and it has a simple twist-n-use application tube that allows quick and easy application.
